July 29th 1967

Notes on a case in Charity Hospital, New Orleans, Louisiana.

On July 4th I met a young woman from a small town in East Texas who told me this tale.

She heard it from a doctor in Shreveport who also practices in New Orleans.

On Nov 22, 1963 early in the morning a woman brought in to Charity Hospital was in a deplorable state, suffering from exposure, beating, etc. She was unconscious, probably under narcotics. Later in the day she revived and an intern told her that John F. Kennedy had been assassinated in Dallas and a fellow named Oswald had been picked up and charged with the killing. Her reaction was "Did they get Ruby too?"

No one thought much of it until Sunday when Ruby shot Oswald. The woman had been discharged by then and when the F.B.I was told of this they could not find a trace of her. So much for that!
